

How to place a bid

Every peso goes to the chapter, so bid like you mean it. A bid cannot be taken back, and the highest one when the clock runs out wins.

Two rules worth knowing before you bid

Both exist so the auction is fair to everyone, not just whoever is watching at the last second.

● The clock can extend

- ✓ A bid in the **last 2 minutes** pushes the closing time out by two more
- ✓ So nobody can swoop in at the buzzer and take an item
- ✓ Keep bidding as long as the clock keeps moving

● Some items have a reserve

- ✗ A hidden minimum the provider is willing to let it go for
- ✗ If the bidding never reaches it, the item does not sell
- ✗ You are not told the figure — only whether it sold

You cannot take a bid back

A placed bid stands. Check the amount before you tap — especially if you typed it yourself.

If you win

You get an email with the amount and how to pay, and it appears under **My bids** with the payment details.

Paying and collecting

Payment is arranged with the chapter directly — GCash, bank or in person. An organizer confirms it once received.
